

LINE CARD

Pride Electronics is a world class distributor and subcontractor that was established more than 60 years ago. Our senior management team averages more than forty years of industry experience. While specializing in hard-to-find commercial and military electronic components and electromechanical products, we also have BPO agreements and multiple JIT programs. With offices on the East and West coasts of the USA as well as in Canada, we are ready to solve your procurement requirements. Our warehouses are strategically located in New York and Texas & can support same day shipping and delivery. We currently have hundreds of thousands of components in stock with access to millions more at our fingertips. Pride Electronics is ISO9001/2015 and ASA100 certified..
